**RE: NL Industries/Taracorp Superfund Site; Granite City, Illinois**

Dear Mr. Bradley:

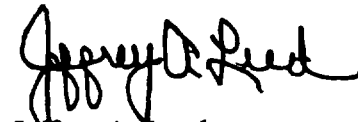

As follow-up to my voice message, this letter is provided on behalf of the NL Industries/Taracorp Superfund Site Group to advise the U.S. Environmental Protection Agency that ENTACT, Inc. ("ENTACT") plans to mobilize to the NL/Taracorp Superfund Site in Granite City, Illinois to perform several miscellaneous activities, including removal of soil cuttings (generated from previous monitoring well installation activities) from approximately 60 drums, removal of trash and debris from the former BV&G Trucking building, and disposal of the wastes at appropriate off-site facilities.

ENTACT plans to mobilize to the site on January 28, 2002 and anticipates that about one week will be required to complete the work.

Please advise if additional information or clarification is required.

Very truly yours,

**LEED ENVIRONMENTAL, INC.**

Jeffrey A. Leed  
Project Coordinator
